

# 4Q21 U.S. Diverse Fundraising Insights

Harlem Capital

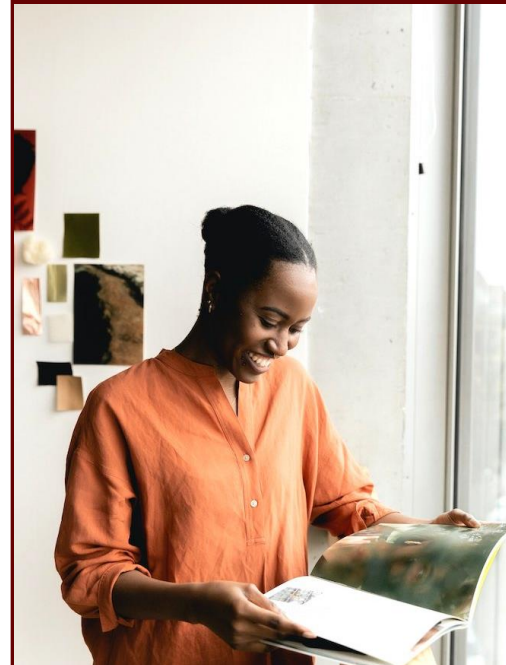

# Introduction

This is our 4Q21 U.S. Diverse Fundraising Insights Report, which tracks the number and dollar volume of capital raised by diverse founders across funding stages.

We utilized Crunchbase's new Diversity Spotlight data as the source for our insights.

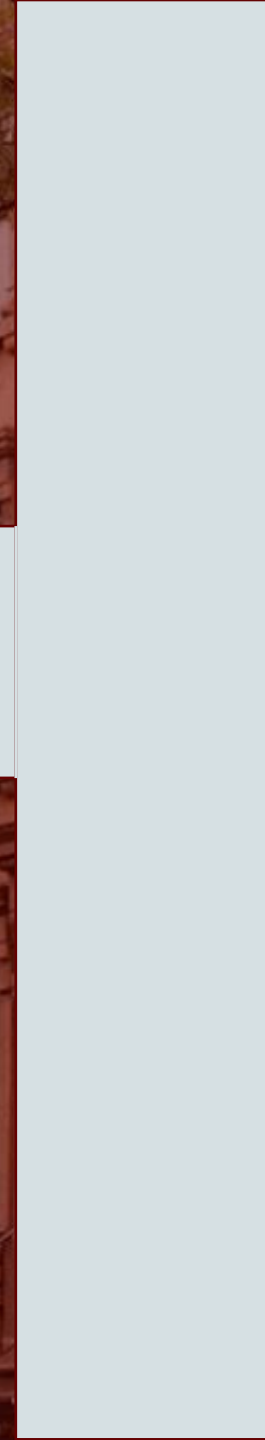

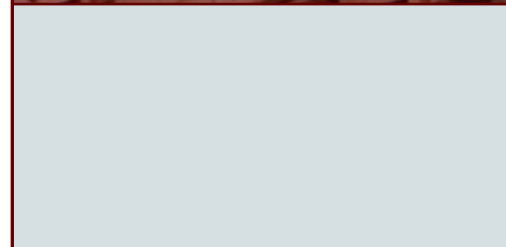

In this report, we define 'diverse' as Black, Latino, Asian, Middle Eastern and women founders.

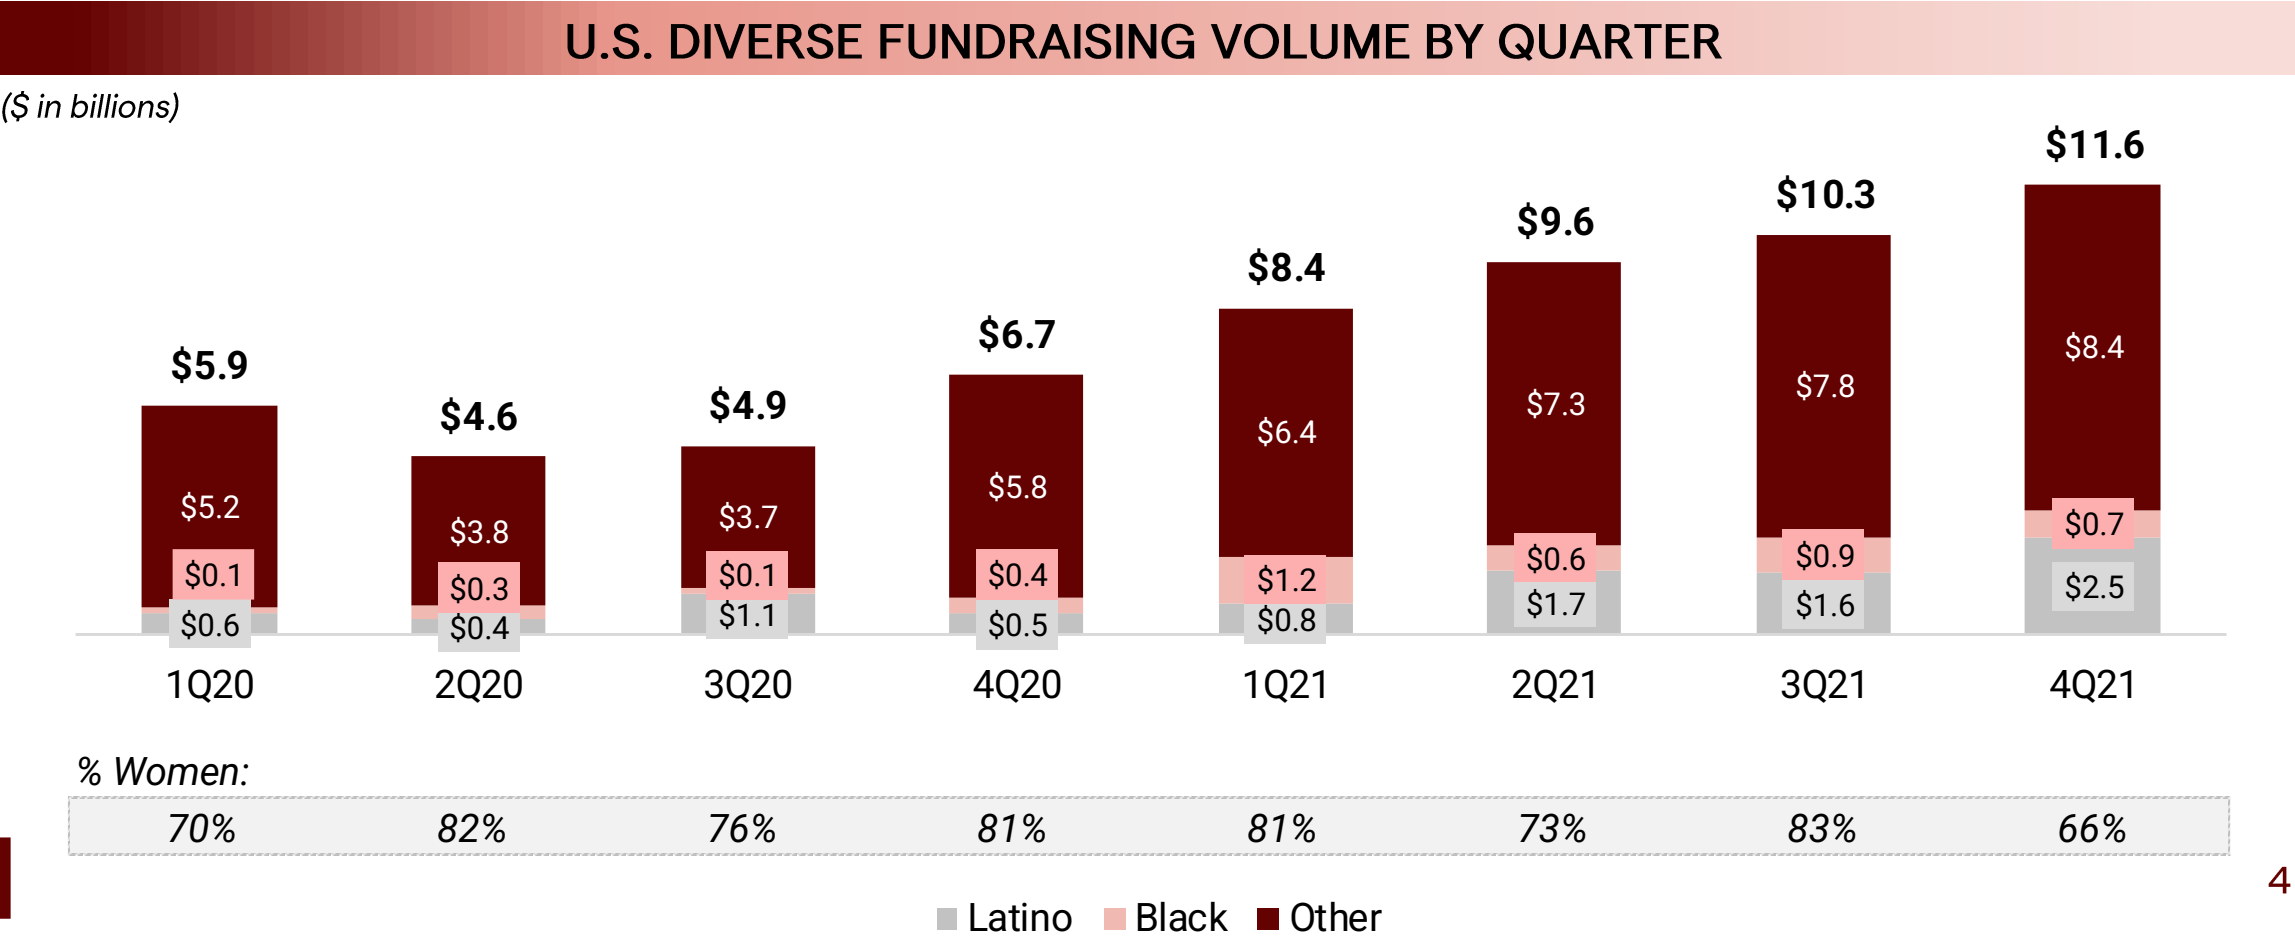

# Key Findings

- 1) 4Q21 saw 458 diverse fundraises totaling \$11.6 billion of capital raised
- 2) Black & Latino founders made up 27% of the number of 4Q21 diverse deals, and 28% of diverse deal volume
- 3) Women founders made up 74% of the number of 4Q21 diverse deals, and 66% of diverse deal volume
- 4) The dollar volume of diverse fundraises more than doubled from 4Q20 to 4Q21, with Black & Latino fundraising volume growing ~243%
- 5) The number of diverse fundraises has remained relatively constant over the same period, meaning the amount of capital raised per round is larger

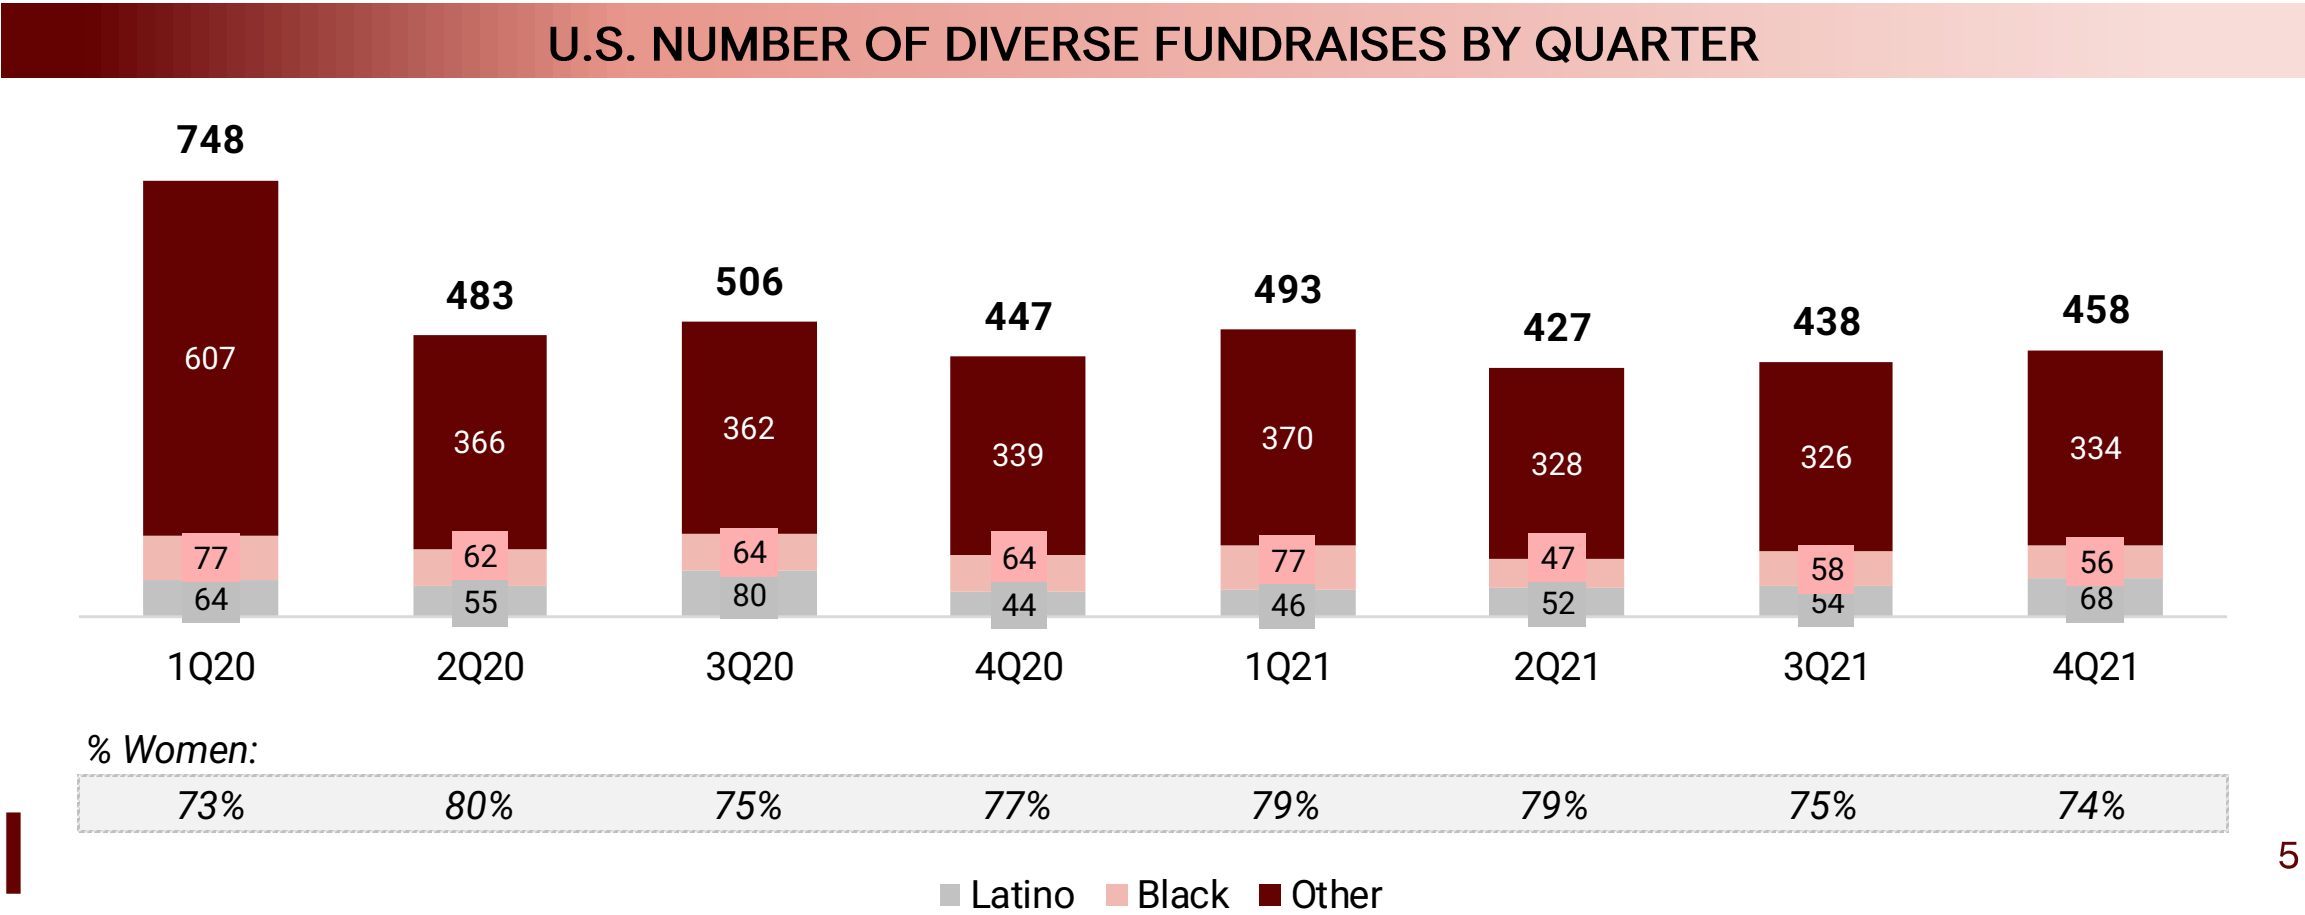

# U.S. Diverse Fundraising Insights

4Q21 was the largest quarter since 2020 in terms of diverse fundraising volume, closely followed by 3Q21. There was also a significant increase in Black and Latino fundraising volume from 4Q20 to 4Q21.

# U.S. Diverse Fundraising Insights (cont.)

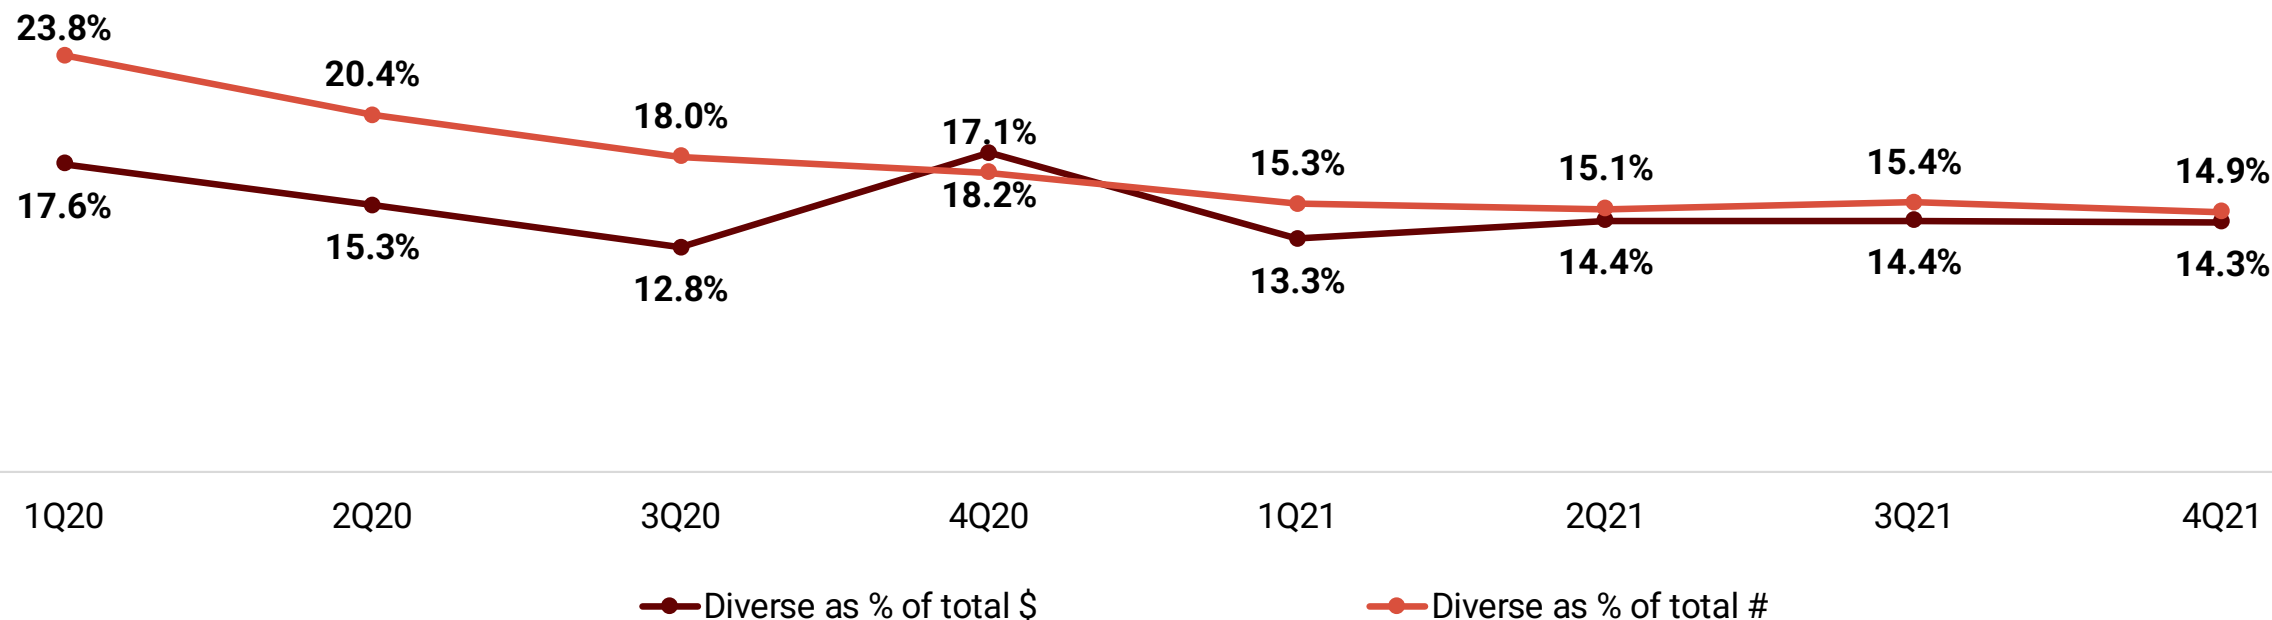

4Q21 was in line with other 2020 quarters in terms of the number of diverse fundraises. However, given the dollar volume of fundraises has continued to increase QoQ, this shows that the fundraise amounts for diverse founders have steadily increased.

# U.S. Diverse Fundraising Insights (cont.)

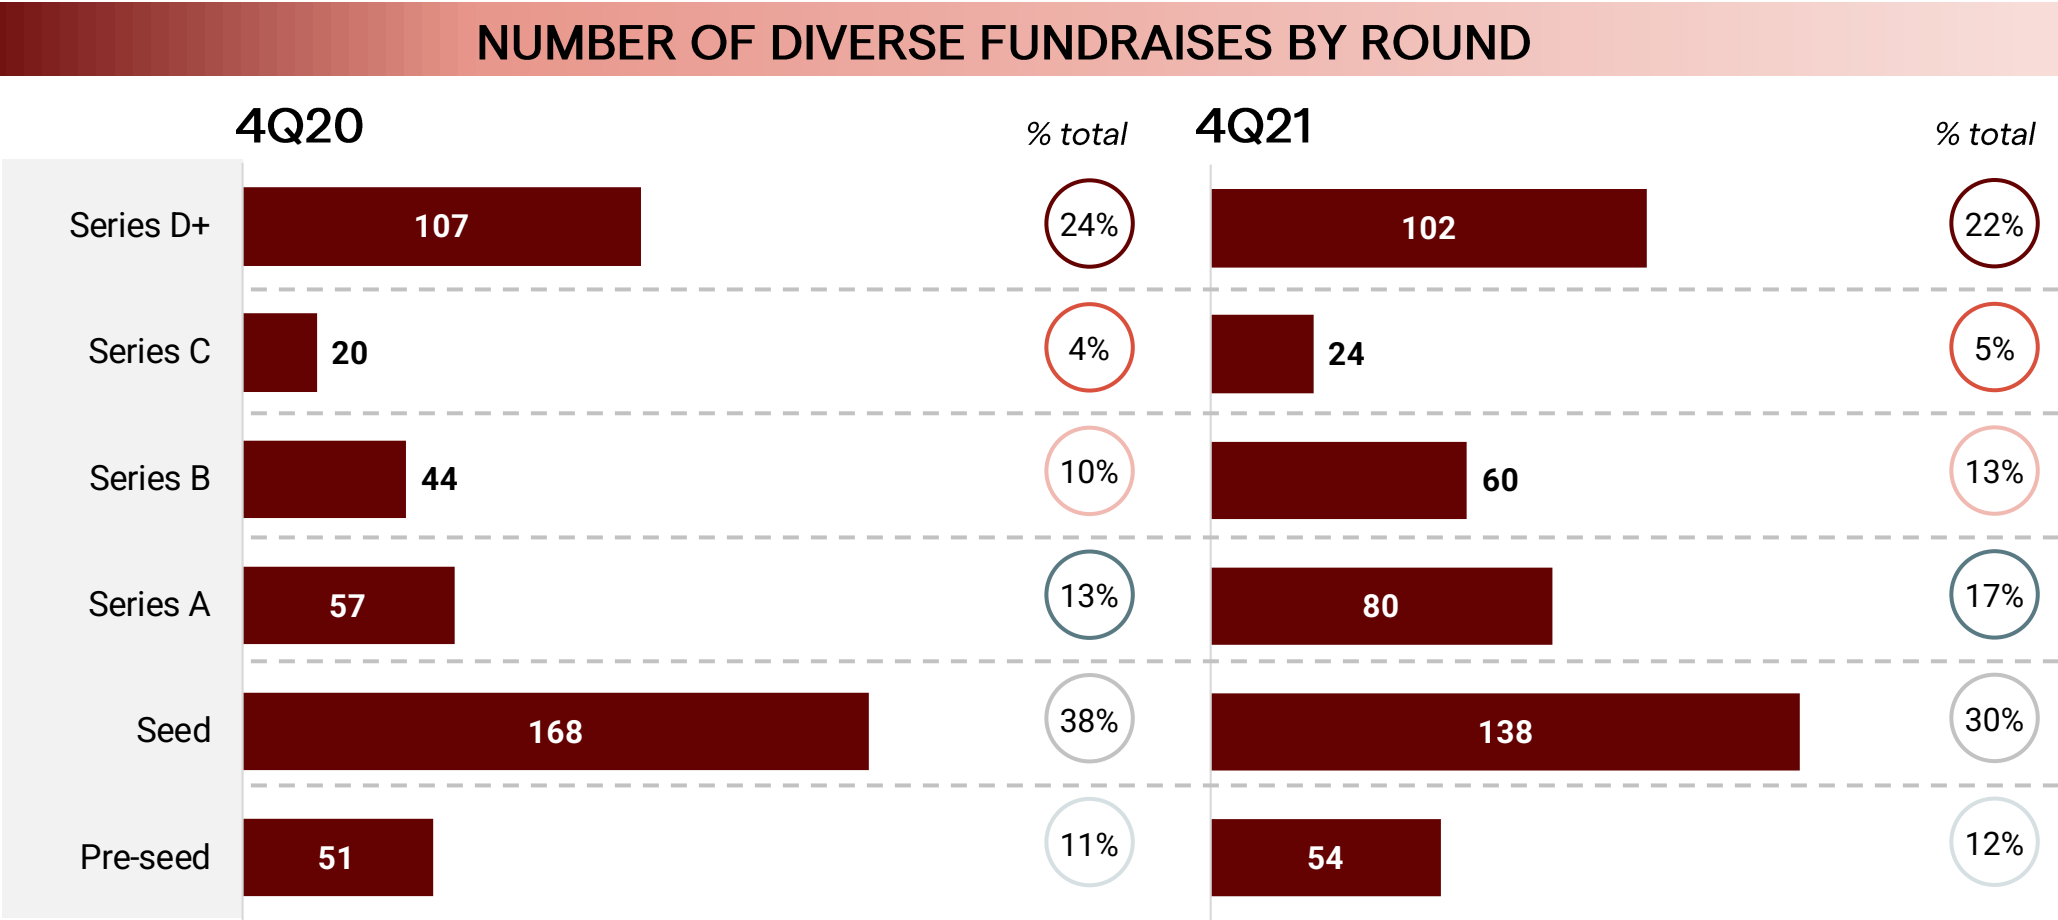

In 2020, diverse fundraises generally made up a larger portion of the number of total deals than the dollar volume of deals. In 2021, this converged, showing that now diverse founders are receiving the same capital per round as their non-diverse counterparts.

U.S. DIVERSE FUNDRAISES VS. TOTAL FUNDRAISES

# U.S. Diverse Fundraising Insights (cont.)

4Q21 saw a decrease in the number of seed & Series D+ diverse fundraises. Pre-seed & Series A-C fundraises have increased.
